

# Rotational Diskboard Deluxe™

for V2 Max Plus™ Rehab and Rehab Reformers

## Offering a new spin on training options.

The Deluxe Rotational Diskboard fits easily and securely into the slots of any STOTT PILATES Rehab model Reformer. Horizontal and vertical mounting slots allow you to alter the location of the disks, providing a variety of foot placement options. Individual mounting offers an asymmetrical stance targeting rotation in hip flexion and extension, adduction and abduction or multiple combinations. Wider placement of the disks also allows for more optimal positioning when using with the Reformer for arm and shoulder mobility and stabilization. Set of two 10" disks included.

### Product Specifications

- Width 24"
- Length 29"
- Height 3"
- Weight 18 lbs

## 12" Mounting Disks

optional for Deluxe Rotational Diskboard

### Increase options with additional surface area

These slightly larger sized Mounting Disks affix easily onto the horizontal and vertical slots of the Rotational Diskboard Deluxe. The additional surface area increases placement options for hands or feet and increases range for upper and lower body exercises. Sold separately and shipped complete with mounting hardware.

### Product Specifications

- Width 12" diameter
- Weight 7 lbs.
