

STOTT PILATES® Hosting Program

The STOTT PILATES Hosting Program allows you to deliver STOTT PILATES' world-renowned instructor training, certification courses and workshops on-site at your facility. Whether you train your own staff or open courses up to the fitness community, the opportunities to generate revenue are endless. You simply handle the course registration, promote the course with our assistance – and we'll do the rest.

Be a Part of the Solution

Since the demand for Pilates is growing faster than there are Pilates instructors available, creating your own Pilates staff is the solution. STOTT PILATES has trained over 25,000 instructors in 94 countries worldwide. Hosting provides an excellent opportunity to educate your staff while aligning yourself with the leader in the industry.

Host On-Site Training at Your Location

STOTT PILATES Certified Instructor Trainers will travel to your location to offer our curriculum, workshops and continuing education.

Benefits of Hosting

Gain Revenue and Profit Opportunities

As a hosting site, you set the enrollment prices and will typically break even with six participants when using STOTT PILATES' standard individual tuition prices as a guide. If you open up the course to non-staff participants, you have the potential to cover the cost of training your own staff. Adding workshops to your training schedule allows you to generate even more revenue.

Inspire Staff Loyalty

A hosted course can accommodate up to 12 students. As a hosting facility you can choose to subsidize your staff's development, encouraging long-term loyalty and commitment. Your instructors can train at a fraction of the regular cost with no additional expenses for travel.

Standardized Teaching Methods

You will have one standardized teaching method at your facility which will benefit both your staff and client membership. Standardized teaching is essential to a successful, well-rounded, reputable Pilates business.

Enjoy Convenience

Our courses can be adapted to weekday or weekend modules to fit participants' busy schedules and reduce travel time and extra costs. It's easy, cost-effective and convenient!

Implement a Profitable Pilates Program

Our Full Solutions service is a valuable resource that will help you implement and run a profitable Pilates program. Receive customized advice and ongoing support to help you achieve success regardless of your facility's size or budget.

Additional Fees – All Courses

In addition to Hosting fees, the Hosting site is responsible for the Instructor Trainer's travel costs, per diem and accommodation. Costs are determined on an individual basis.

Partner with the Best

Dear friends,

When you partner with STOTT PILATES, you're associating with a leader in the industry.
